

Solidarity with the Windrush generation

Let's create a "hostile
environment" for racism

**Monday
30 April,
from 4pm**

Parliament
Square,
London
SW1P 3JX

Theresa May and Amber Rudd's treatment of the Windrush generation has angered millions of people.

While the Tories are now trying to retreat there needs to be cast iron guarantees on an end to deportations, a complete amnesty and full compensation.

There also has to be an end to the "hostile environment" policy carried out by the Tories against both people from the Commonwealth who came here as UK citizens and subsequent groups of migrants.

The Tories have a racist

immigration agenda, that has scapegoated migrants.

The appalling treatment faced by the Windrush generation is no accident. It is a part of a systematic policy.

We will be gathering in Parliament Square to support the "Windrush debate" and to call for an end to the Tories' racist immigration policies.
