National Unity Demonstration Against Fascism and Racism:
Saturday November 17th, Central London
Organised by Stand Up To Racism
We are experiencing the biggest rise in support for fascism, the far right, racism, Islamophobia and antisemitism since the 1930s. In Britain, fascists and racists are mobilising on a scale not seen for decades. The campaign to “free Tommy Robinson”, the fascist ex-leader of the English Defence League, has seen the racist and fascist right marching on Britain’s streets under the banner of the Democratic Football Lads Alliance, with violent attacks on anti-racists and trade unionists. They are organising with political and financial support from the US alt-right.

Donald Trump’s presidency has emboldened the far right across the world. The scapegoating by mainstream politicians of migrants, refugees and the Muslim community is seeming to make racist ideas more acceptable. In many European countries, racist and fascist parties have moved from the margins of politics into the corridors of power.

The hostile environment must be ended – whether it’s towards Muslims, refugees, migrants or the Windrush generation. We also need to end discriminatory policing, like stop and search of black people.

Lewisham chased the racists off our streets 40 years ago – we will do it again! Come to our meeting in New Cross on Tuesday 6th November and to the national demo on Saturday 17th November in central London.
